

# GEL BREAK

BRIDGEPOINT SYSTEMS Adhesive Remover

**GEL BREAK ADHESIVE REMOVER** is gel based, designed to remove gum, glue, tape residue, and other contaminants that adhere to carpet, upholstery and hard surfaces. Always pre-test in a small inconspicuous area for safety and compatibility with the fabric or surface. Shake well before using.

- Gel contains product horizontally, but allows product to move readily penetrate into gum or adhesive residue from the top
- New formula has increased solvency and improved penetration to speed up process.
- Meets VOC limit of adhesive remover

### DIRECTIONS:

1. Remove loose or excess residue.
2. Apply Gel Break Adhesive Remover full strength to the adhesive or gum. Avoid over-application.
3. Agitate Gel Break Adhesive Remover into area with any hand held implements like GUM-GETTER or bone scraper. Poke into the contaminant surface to allow the Gel Break to penetrate.
4. Allow to dwell for 3-5 minutes.
5. Blot or scrape up excess Gel Break Adhesive Remover along with any adhesive or gum that has been loosened. Repeat steps 2-5 if necessary.
6. Blot and rinse the area thoroughly, using extraction equipment and clean water.
7. Mist Spot Stop on treated areas. Brush Spot Stop to both align the fibers and evenly distribute the product.
