TO A CLEAN GREEN ENVIRONMENT

Bio-Zyme INCistern Toilet Bowl Cleaner

Content Bio-Zyme Cleaner

- INCistern is an automatic toilet bowl cleaner
- It attaches to the inside of cistern
- Requires no batteries to work and no plumbers for installation
- INCistern dosing is activated by the kinetic energy of the refilling rising cistern water replaced after each flush. The unique INCistern activator measures and doses the exact amount of concentrate for every flush.
- Using Bio-Zyme cleaner to eat away at uric acid deposits while leaving a film on the toilet bowl for ease of cleaning.

Features & Benefits
