

AERO 26-21PC AERO 26-2LPC

LIGHT DUTY DUST EXTRACTOR

The Aero is a compact and portable Wet&Dry vacuum designed to also operate as an efficient compact dust extractor. For general purpose applications with non-hazardous dust, Aero ensures that you minimise the day-to-day dust on site – minimising your Health & Safety risk.

- Wet & Dry model
- Power outlet with automatic start/stop for electric tools – collect the dust straight from your power tool
- **Push&Clean semi-automatic filter cleaning system**
- **Washable PET M-Class filter** – min. 99.9% filtration
- Flat top designed for storage of hand tools
- Blow function
- Integrated container lifting handle for easy and convenient disposal
- Recessed interface to protect switch and power outlet
- Built-in flexible storage of suction hose and accessories
- Compact and ergonomic design for easy transportation
- Robust design with large wheels, steady footprint
- **1 Year Industrial Warranty**

All hoses interconnect with all vacuums in this catalogue. Except Type 22 models.
