

Sapphire #3 Neutral Cleaner

1: Identification of the material and supplier

Product Identifier	Sapphire #3 Neutral Cleaner		
Other Means of Identification	SAPPHIRE3.CTN (3x2.5L), SAPPHIRE3RTU.CTN (6 x 750mL)		
Recommended Use	Neutral Cleaner		
Supplier	Organisation	Location	Contact Information
	Commercial Cleaning Repairs	6 Tony Street Henderson, Auckland NZ	Phone: (09) 836 0937 Fax: (09) 836 0938 E-Mail: sales@ccrepairs.co.nz Web: www.ccrepairs.co.nz
Emergency Phone Number	National Poisons Centre (New Zealand) 0800 764 766		

2: Hazardous Identification

Classified as hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) criteria of Safe Work Australia and classified as a non-dangerous good according to Australian Dangerous Goods Code.

In ready to use form, when diluted with water, at or more than 1:14 ($\leq 73\text{mL/L}$) the diluted product is classified as non-hazardous.

GHS Classification	Eye damage (category 1)	
Signal Word	Danger	
Hazardous Statement(s)	Causes serious eye damage	
Precautionary Statement(s)	Wear eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE or doctor.	

3: Composition/Information on Ingredients

Ingredient	CAS Number	Proportion (% w/w)
Linear alkyl ethoxylate	68439-46-3	10 - <30%
Non-hazardous ingredients	-	To 100%

4: First Aid Measures

General	For advice, contact the National Poisons Centre (New Zealand) 0800 764 766 or a doctor.
Ingestion	If swallowed, DO NOT induce vomiting. If person is conscious, rinse mouth thoroughly with water first then give a glass of water to drink. If vomiting occurs, wash out mouth again with water and give another glass of water to drink. Seek medical attention if irritation persists.
Eyes	If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by a National Poisons Centre (New Zealand) 0800 764 766 or a doctor, or for at least 15 minutes.
Skin	If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.
Inhalation	If inhalation causes an irritation, remove from contaminated area. Seek medical attention if irritation persists.
Symptoms Caused by Exposure	Prolonged skin contact may result in dermatitis due to the defatting of the natural oils in the skin.
Medical Attention and Special Treatment	May cause corneal burns.

5: Fire Fighting Measures

Suitable Extinguishing Equipment	Material itself is not combustible. Extinguish fire using agent suitable for type of surrounding fire. Use foam, dry chemical or carbon dioxide. Keep run-off water out of sewers and water sources.
Specific Hazards Arising from the Chemical	When heated to decomposition will produce irritating fumes.
Special Protective Equipment and Precautions for Fire Fighters	Use water spray to keep fire-exposed containers cool.
Hazchem Code	None allocated.

6: Accidental Release Measures

Personal Precautions	Surfaces may be slippery. Increase ventilation. Wear PPE in accordance with section 8. Stop leak if safe to do so. Isolate the spill area. Keep unnecessary personnel away. Clean up immediately to avoid accidents.
Environmental Precautions	Do NOT allow spilled concentrated product to enter drains, sewers, creeks, dams, rivers or waterways.

Spills and Disposal

Small Spills

Mop or wipe up with a rag or paper towel and dispose of in the rubbish. Wash down surface with water.

Large Spills

Contain, collect and recycle spilt product if possible otherwise absorb spill with material such as soil, sand, attapulgate, vermiculite. Collect and seal in properly labelled, chemical resistant containers. Wash area with water. Seek disposal options by a licensed waste contractor.

7: Handling and Storage

Precautions for Safe Handling Wash hands after use. Minimise direct contact with product. Wear PPE in accordance with label or section 8.

Conditions for Safe Storage Always replace lid on container after use. Store in a cool dry place out of direct sunlight and out of reach of children.

8: Exposure Controls – Personal Protection

National Exposure Standards An exposure standard has not been established for this product.

Engineering Controls Use in well-ventilated area

Personal Protection

Eyes/Face Safety glasses. Avoid eye contact.

Hands Not generally required when used as per label directions. Avoid skin contact.

Skin Not generally required when used as per label directions. Avoid skin contact.

Respiratory Not generally required when used as per label directions. Avoid inhaling spray mist.

9: Physical and Chemical Properties

Appearance Dark purple liquid

Odour Fresh

pH 8.0 – 9.0

Vapour Pressure Not applicable

Vapour Density Not applicable

Flash Point Not applicable

Flammability Limits Not applicable

Boiling Point Not determined

Melting Point Not determined

Specific Gravity 1.0

Solubility Soluble in water

10: Stability and Reactivity

Chemical Stability	The product is stable under normal conditions.
Possibility of Hazardous Reaction	None known.
Conditions to Avoid	Extreme heat and temperatures.
Incompatible Materials	Strong oxidizing agents.
Hazardous Decomposition Products	None known.

11: Toxicological Information

Ingestion	Product is considered to be of low toxicity. Ingestion of large amounts may cause irritation to the oesophagus and cause gastrointestinal upset.
Eye	Eye irritation (Draize, rabbit): severely irritating. Vascularisation of the cornea was observed when; undiluted (100%) similar surfactants were applied to the eyes of rabbits. As this is considered a permanent effect, the studies were terminated. The chemicals were considered to be severely irritating to the eye (HERA, 2009). The surfactant in this product is dilute (<20%).
Skin	Dermal LD50 (rabbit): >20g/kg The surfactant contained in this product exhibit low acute dermal toxicity. Low irritation to the skin. However may cause reddening of the skin, rashes or dermatitis on prolonged skin contact.
Inhalation	The surfactants in this product have low acute inhalation toxicity. In non-guideline studies reported in HERA (2009) the surfactants contained in this product had a LC50 values in rats that exceeded the saturated vapour concentration in air. There were no mortalities reported.

12: Ecological Information

Ecotoxicity	48 hour EC50 (Daphnia pulex): 5.9 mg/L
Persistence/Degradability	The surfactant is expected to be readily biodegradable according to the AS 4351 Part 2 test protocol.
Bio-accumulative Potential	Limited potential to bio-accumulate
Mobility in Soil	No data available

13: Disposal Considerations

Disposal Methods

The most effective way to dispose of product is to use as was originally intended, in accordance with label instructions. If disposal of large volumes of unwanted or excess product is required, either supply to product to someone who can use it in accordance with label instructions or contact your local council and/or state environmental authority for advice. Dispose of in accordance with Local, State and Federal regulations.

Drain containers thoroughly and rinse empty containers with water and use the solution in accordance with label instructions. Recycle packaging at an approved collection point or recycling facility.

14: Transport Information

UN Number Not applicable

Shipping Name Not applicable

Class Not applicable

Subsidiary Risk Not applicable

Packing Group Not applicable

Special Precautions For Users Ensure containers are clearly labelled. Keep containers securely sealed and protected against physical damage.

Hazchem Code Not applicable

IERG Number Not applicable

15: Regulatory Information

Packaging & Labelling

This product is not classified as a Scheduled Poison. Defined as a "Non-Dangerous Good" by the Australian Code for the Transport of Dangerous Goods by Road and Rail.

Classified as hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) criteria of Safe Work Australia.

Cleaning Products (Subsidiary Hazard) Group Standard 2017 – HSR002530

HSNO Approval Number

HSR002530

Subclass

Category 6.1D – Acutely toxic (oral)

Category 6.3A – Irritating to the skin

Category 8.3A – Corrosive to ocular tissue

Category 9.1D – Slightly harmful in the aquatic environment

Category 9.3C - Harmful to terrestrial vertebrates
